

SIMON HALL advanced driver training

was established in 1999, by owner and lead trainer, Simon Hall. With nearly 30 years Police service as a Car Patrol Officer, Police Motorcyclist and Forensic Crash Investigator, as well as being an Advanced Police Driving Instructor, Simon has vast experience and knowledge of a wide range of driving applications, regulations and legislation.

Along with an impressive list of personal qualifications Simon is also

- a Driving Standards Agency Approved Driving Instructor
- on the DSA Register of Fleet Driver Trainers
- a member of the Driving Instructors Association
- a member of the Association of Industrial Road Safety Officers
- a member of the Institute of Traffic Accident Investigators
- a Support Service member of the British Ambulance Association

Simon has personally delivered advanced driving instruction on the public road and on race circuits in the UK, Europe and USA, as well as providing demonstration driving for several new vehicle launches by some of the major motor manufacturers.

what they say about us...

"In order to advance our already high standards in our market Carry Care Ltd decided to look for "the next stage" and Simon Hall gives us just that. This is what we really like – our drivers have gone from "drivers" to quality, considerate and experienced professional drivers under Simon's expert guidance. Carry Care Ltd is proud of it's association with Simon Hall and has NO hesitation in recommending Simon and his team to any other company keen to add value to their service."

Steve Lee, Operations Director, Carry Care Ltd.

"Simon Hall Advanced Driver Training has been this Association's preferred driver trainer for a number of years. Member Services using his facilities have provided more than excellent reports about the training, and additional help and knowledge in assisting with driving matters. We have always received excellent feedback and he continues to serve our organisation as a Support Service Associate Member."

*Don Williams, Founder and Chairman,
British Ambulance Association*

SIMON HALL advanced driver training

SIMON HALL advanced driver training

We provide outstanding professional driver training services to individuals and fleet customers, offering a comprehensive range of driver training programmes that are tailored to your specific needs and budget.

Simon and his team have the experience, qualifications, knowledge and expertise to be able to design and deliver effective driver training to an extremely high standard – superior driver training that continues to benefit our many satisfied customers, throughout the UK and overseas.

We cater for all driver training requirements, to both public sector and private clients, including:

- **advanced driving**
- **defensive driving**
- **emergency response/Blue Light driving**
- **chauffeur training**
- **track/circuit driving**

Advanced driver training can bring many benefits, including:

- **increased driving ability and confidence**
- **enhanced observation and reaction skills**
- **safe, aware, assured and efficient drivers**
- **savings in fuel efficiency**
- **reduced vehicle repair bills**
- **reduced insurance premiums**
- **meeting Health & Safety responsibilities to staff and customers**

Advanced driver training courses are individually designed to meet the specific training needs of you and your drivers. The content and expected outcome of each course ensures that the training produces the greatest benefit to you – the client – and meets your full expectations.

We have successfully delivered courses on a variety of driving skills areas, including:

- **Advanced and Defensive Driver Training** – focussing on improved observational skills as well as planning, smoothness and vehicle and passenger consideration;
- **Eco-Driving** – aiming to show drivers how to conserve fuel by improving observation and planning and better use of the gears, leading to measurable benefits;
- **Response Driving** – also known as blue light or high speed driving, a package we have designed and delivered to a number of private and voluntary sector ambulance companies as well as to NHS Hospital Trusts. The course addresses all relevant legislation and aims to show drivers how to make safe progress through enhanced skills and awareness;
- **Chauffeur Training** – focussing on the responsibility of conveying customers safely and in comfort by addressing driving skills, route planning, time management and chauffeur etiquette;
- **Circuit/Track Driving** – the most beneficial modification you can make to your track car is to get some instruction for the driver. We can show you how to get the best out of your car and yourself on a track day.
